

# WOULD YOU KNOW?

## WOULD YOU KNOW WHO IS ON-SITE IN AN EMERGENCY?

A fast, accurate, and real time roll call solution is an essential requirement for any business during an emergency evacuation situation, helping managers and safety officers account for all on-site employees and visitors.

### Connected Data Solutions Roll Call system provides:

#### ▶ FULL AUTOMATION

Monitors alarm panels and automatically produces on-site printed or emailed reports upon an alarm activation. Automatically resumes monitoring once alarm has been reset.

#### ▶ RESILIENCE

The software utilises contingency data in the event of the loss of real-time data.

#### ▶ SYSTEM MONITORING

The software alerts IT teams to system communication failures via email or SMS.

#### ▶ SCALABILITY

Easily configured for enterprise customers with multiple sites and multiple alarm panels.

#### ▶ INTEGRATION WITH KRONOS PRODUCTS

Unique to Roll Call, our solution is designed to work with Kronos Workforce Central and Workforce Ready. No additional badges, no multiple systems to update and no additional training for your employees.
